

Dogs & Cats

Daily inclusion in food strengthens teeth, bones, tendons and improves the function of organs such liver and kidneys. This leads to improved metabolism with resultant health and vitality increase.

Fleas and lice and ticks can be managed by dusting the dogs coat, and their bedding. Works great in the kennel to keep noxious odor and wetness down.

For cats the same observations can be made. Works to decrease odor in litter boxes, and absorbs wetness.

Clinical Observations of Feeding Codex Food-grade Diatomaceous Earth to Dogs

O.C. Collins, DVM, Midland Animal Clinic and Hospital, Midland, Texas

In clinical observations on feeding dogs over 35 lbs. 1 tablespoon/day and under 35 lbs. 1 teaspoon/day of diatomaceous earth, within seven days all ova disappeared from stools. Diatomaceous Earth controlled Ascarids (*Toxacara canis*), Hookworms (*Ancliyostoma caninum*), and Whipworms (*Trichuris vulipis*).
